

## **Rockhampton teens to become social entrepreneurs as part of the Young Change Agents Program!**

### **Join us to hear local youth pitch their social enterprise ideas at the inaugural Young Change Agents Regional Pitch!**

Young Change Agents is a program that helps young people see problems as opportunities through the lens of social enterprise. It provides them with the tools to think creatively, build skills in critical thinking and communication and empowers them to believe that they are good enough to be entrepreneurs, leaders and world changers.

With special thanks to major supporter Telstra Foundation and local supporter CQUniversity, come along to hear our new Young Change Agents as they pitch their social enterprise solutions to problems they have identified and are passionate about! The teams have participated in the Young Change Agents 2.5 day design-thinking based program in July.
